Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Friday 29 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Widespread rain arriving during the night.

Today:
A wet start for many with heavy scattered showers mixed with bright spells. Turning drier in the afternoon with periods of sunshine. Windy with a risk of coastal gales during the morning, but easing through the day. Maximum temperature 11 deg C (52 deg F).

Tonight:
After a dry start, a large area of rain will soon arrive from the southwest during the night, bringing heavy downpours and possibly leading to flooding on the moors. Minimum temperature 3 deg C (37 deg F).

Saturday:
Cold and windy with outbreaks of rain continuing across the region, possibly falling as snow in the east. Turning drier overnight with clear spells. Maximum temperature 6 deg C (43 deg F).

Outlook for Sunday to Tuesday:
A cold and frosty start on Sunday with further wind and rain later. Drier on Monday after early rain clears. Turning milder on Tuesday with outbreaks of rain.
